-
- Object Oriented Programming (C++)
 - Data Structures (C++)
 - Computer Organization and Assembly Language (C++, Assembly)
 - Python Programming
 - Operating Systems Concepts
 - Software Engineering
 - Cybersecurity Fundamentals and Principles
 - Databases & File Structures
 - Algorithms

PROJECTS AND EXTRACURRICULAR ACTIVITIES

Movie Recommender Website

December 2024

- Collaborated with 2 other teammates to plan, design, build, and customize a movie recommendation website. Utilized the programming languages HTML, CSS, and Javascript for the frontend and PHP and SQL for the backend.

Animated Gradient Image

December 2022

- Collaborated with teammates to utilize the GraphicsMagick library in creating a series of still images that were later combined into a singular, animated gradient image.

Esports Club Organizer

May 2022

- Collaborated with team members to budget, organize, and hold local events for competitive play.
- Managed local tournaments and utilized streaming services to maintain competitive trust and provide entertainment.

Air Force Association Cyber Patriot Camp

June 2021

- Applied and further developed problem-solving, critical thinking, and leadership skills.
- Collaborated with teammates to learn and develop skills in basic Windows security policies and tools, account management, windows file protections, auditing, monitoring, basic GUI security, and Linux/Ubuntu systems and security.

TECHNICAL SKILLS

Programming languages: C++, C, Python, Assembly, HTML, CSS, Javascript

OS/Software: Windows, Linux/Ubuntu, MacOS, Autodesk Inventor, Microsoft Visual Studio Code
